RE: NPDES Phase II Small MS4 General Permit

Town of Norwell, Massachusetts Annual Report

MADEP Transmittal No. W-035900

Dear Madam/Sir:

The Town of Norwell, Massachusetts is pleased to provide you with the attached National Pollutant Discharge Elimination System (NPDES) Phase II Small MS4 General Permit Annual Report for the period from April 1, 2008 to March 31, 2009. In general, the Town has developed a stormwater management program and will continue to implement activities in accordance with regulatory requirements and as available funding will allow.

Should you have any questions, please do not hesitate to call me at (781) 659-8042.

Sincerely,

Paul M. Føulsham Highway Suryeyor

Part II. Self-Assessment

In general, the Town of Norwell's stormwater management activities for the five years of the General Permit (Ma March 2008) have focused on obtaining necessary funding to implement the activities outlined in the Notice of In DEP form BRP WM 08A) submitted in July 2003. The Town has developed a Stormwater Management Plan with for 2003-2008 including:

- 1. Achieving regulatory compliance, particularly EPA and DEP Phase II NPDES permit requirements;
- 2. Incorporating storm water protection measures into municipal activities;
- 3. Focusing activities on target pollution reduction (e.g. Section 303.d. waters and protecting the Town's war
- 4. Ensuring that the Program is current and innovative; and
- 5. Providing Program administration.

The Water Quality Stewardship element of the program focused on the protection of the local water supply and as Section 303.d waters located within the Town. To this end, staff continued to develop and improve the Program storm water pollution to the maximum extent practicable and eliminate prohibited non-storm water discharges, we understanding and involvement in storm water management by various Town departments. Program priorities also increased efforts to reduce target pollutants and restore local water bodies.

The Town is committed to working with local watershed associations to advance their goals and objectives. Ano staff was be to keep abreast of the latest technology and approaches to achieve storm water management. Program strove to encourage environmental stewardship and continued to build on partnerships with other agencies, neigh community for active participation in accomplishing the Program mission.

During Permit Year One, the Town focused on preparing a Stormwater Management Plan (dated June 26, 2003). the Town focused on obtaining local approval to borrow stormwater management funds (\$300,000) from the Mas Abatement Trust State Revolving Fund Program; reviewing current regulations; improving local good housekeep communicating the Town's Plan to local watershed associations. This required communication among the variou town. The financing of the project is critical for the proposed program success. During Permit Years Four and F was finalized and the town-wide mapping of the town's stormwater system was completed. In addition, the town inspection program as part of the illicit discharge detection requirement.
